"THE DEVIL'S FRUIT CAKE."

Mrs. Wilson of Nashville, Baker Ex-

traordinary to the World at Largo. Here is the story of a woman who finds herself famous without malice aforethought upon her part. A career has, in fact, thrust itself upon her. All she has done has been to develop an inborn art impulse, a rather wonderful palate, not along the lines of least resistance, but of most profit. As a consequence she has kings and noblemen, presidents and cabinet ministers, not to mention simple millionaires, across her patrons. The truly wonderful thing

He took back with him a consequence Mrs. Wilson has received orders for several cakes to be sent to the White House at Christmastide. She has express receipts showing that her cakes have been delivered at the courts of Vienna and St. James; also to all the American duchesses and not a few other expatriates. They have gone safe as far as Australia and Brazil and even into Russia. Mrs. Wilson never saw the inside of a cooking school. All she has done is through nature's free gift. When she married, back in the nineties, homemaking and homekeeping were, as they still are, her delight. She had not the least thought of doing more than delight the palates of her family and her friends. From baking for her friends she drifted into band's will. He was taking care of that family. Still, the venture has not bred family dissension. How could it when

Needless Wear of Roads by Autos. A county surveyor protests against the habit which many motorists have of doing the majority of their driving on the crown or center of the road This method of driving means that one portion of the road takes all the wear and naturally, of course, gets worn into ruts and ridges. If the traffic would spread itself and make all that portion of the road from gui ter to the top of the crown take share of the wear, road surfaces would last much longer and would require less frequent repair. In these days when roads are made almost flat there is no excuse for this habit of clinging to the crown, but where roads are made with a great deal of camber it is perhaps excusable, as driving on a continuous slope is the reverse of

Hereford Sale at the Kentucky State Fair.

For the first time at the Kentucky State Fair there will be held a public sale of registered Hereford cattle on Thursday, Sept. 16th, 1909. This sale will be made up of some of the best cattle owned by Kentucky Hereford breeders, and something like fifty head will be offered.

If this sale is a success, as is future public sales of other breeds c' cattle will probably be held, as well as registered sheep and hogs. Any farmer wanting foundation stock of Herefords would do well to be on hand a this sale, as the cattle will be sold irrespective of price, to the highest

Sensitive Tobacco Plants.

In Cuba the best tobacco comes from one strip of land only, the slopes of a certain river, and even there a north wind may ruin the crop. Tobacco is the most sensitive plant we know of. The smallest thing affects its flavor. Plant Virginia tobacco in Germany, and the result is a better tobacco, but it is German tobacco, not Virginian. In north Borneo they produce the most delicate and silky leaves that ever were seen, but the tobacco lacks character and taste.
